- These are .pdf files. You must have the

free Adobe Reader™ or an equivalent viewer to read them. Most PC's already have this installed so go ahead and click on the desired newsletter. If you cannot access it, you probably need a .pdf reader...see below.

- Adobe Reader for Windows™ users can be [downloaded here](#). Be careful to “**uncheck**” the box in the illustration below if you don't want it to also download Google Chrome and the Google Toolbar, or whatever software it is suggesting at the time.

- Adobe Reader for Macintosh users can be [downloaded here](#).

- Remember that your .pdf viewer will have + or – buttons at the top or bottom of the screen so that you can adjust the size of the newsletter as you desire. This is a function of your viewer and not the web site.
