

# Surgery Tables and Growth Charts

## SOFT's Trisomy Surgery Registry & Growth Charts

[New Members: Register & Report Surgeries](#)   [Members: Report a New Surgery](#)   [Administration](#)

*The Surgery Registry contains parent-reported information for nearly 3,000 surgeries and procedures. Data collection began in the late 1980's and continues today. Most requests to SOFT for surgery information are about cardiac surgery.*

<<< You can COPY any table's results, and PASTE it into an Excel spreadsheet, for further manipulation. Open a blank Excel spreadsheet BEFORE doing the COPY. OR: [IMPORT the report into Excel](#) (print these instructions, then run the report) >>>

~ Surgery Tables & Growth Charts ~

♥ [Table of Cardiac Surgeries](#) Reported to SOFT by parents of SOFT children.

♥ [List of HOSPITALS where cardiac surgeries or](#)

[procedures have been conducted in recent years.](#)

♥ [Table of All Surgeries Reported to SOFT, by parents of SOFT children.](#)

Note: As hospitals change policies and as surgeons come and go, some hospitals may or may not currently allow cardiac surgeries for children with trisomy.

♥ [Growth Charts for Children with Trisomy](#) You can take these to your child's physician.

## ~ Cardiac Surgery Information ~

♥ [Congenital Heart Defects:](#) – Explanations of many defects are provided here.

♥ The [SOFT YouTube video library](#) contains many videos about cardiac defects and cardiac surgery.

♥ SOFT's Professional Literature Section: [Articles about Cardiac Surgery.](#)

**When asked about a surgery SOFT provides:**

Total numbers for specific surgery

Diagnosis of children who had the surgery

Reported outcomes

Name of hospital and surgeon name, if available

respect a family's privacy. Sometimes a parent  
ll wish to find another family whose child had a  
rgery. SOFT does not share names without  
questing and receiving permission. However, studies  
e sometimes done in collaboration with SOFT and  
formation necessary to allow parent contact might be  
vided to the researcher on a confidential basis.  
uestions can be sent by email to [Surgery Committee](#)
